

# Amphenol

SINESYSTEMS

New Product Release - March 2009

**AT Series™** Connectors **AHD Series™** Connectors

AT AHD Series™ Connectors

**AT Series™ Connectors** were designed as a high-performance, cost-effective solution to be used within the Heavy Equipment, Agricultural, Automotive, Military, Alternative Energy and other demanding interconnect architectures. The AT Series™ connectors contain superior environmental seals, seal retention capabilities and feature Amphenol Sine Systems **RockSolid™ Contact** technology. In addition, all of our AT Series™ connectors have been developed to be completely compatible with all other existing standard products industry-wide.

**AHD Series™ Connectors** were developed in response to the overwhelming need for an economic alternative to today's existing diagnostic product options. Designed specifically as a cost-conscious, reliable alternative, intermateable to industry standard 6 and 9 pin connectors, the **AHD Series™** is ideal for any situation where either controlled and/or uncontrolled environmental conditions exist. Amphenol Sine Systems **AHD Series™ Connectors** offer both a smooth, non-sealing option for controlled applications, as well as an environmentally-sealed, threaded option for more demanding applications. The same applies for our **DiagnosticGrade™ Cable Assemblies** in that we provide both options for our customers.

For more information on these product lines, please feel free to download the AT and AHD Series™ Catalog [here](#). In addition, please feel free to contact [Don Hunsucker, Program Manager](#) at 1.800.394.7732 Ext. 8638 or email: [donh@sineco.com](mailto:donh@sineco.com).
