New Product Release - March 2009

Factory Automation Power and Control Media

Amphenol Sine Systems is pleased to announce the releases of our miniBOSS™, microBOSS™ M12 and DeviceNet™ product lines, all found under the *Factory Automation Power and Control Media* catalog.

These products were developed in response to the need for a robust, streamlined and scalable product line for use in all robotic and material handling systems, such as: conveyors, sorting, automated storage and retrieval, packaging, overhead transport, palletizing and any other options imaginable.

The **miniBOSS™** system is offered in 2, 3, 4, 5 and 6 position configurations. This system allows for cost-effective power and signal distribution, utilizing UL ST00W/CSA Type ST cable, as well as High Flex TPE jacketed UL Listed TC-ER cable.

The **microBOSS™ M12** system is offered in 3, 4, and 5 pin configurations that deliver signal to a wide variety of devices, utilizing both UL AWM-style 2661 and CSA AWM I/II A/B cable, as well as Flex and High Flex cable options.

DeviceNet™ cables are available in static, thick and thin sizes, set to cover the many different demands in the field, utilizing UL Type CL2 or PLTC and CSA AWM I/II A/B FT4 cable, as well as Flex and High Flex cable options.

For more information on these product lines, please feel free to download the FACTORY AUTOMATION POWER AND CONTROL MEDIA Catalog [here](#). In addition, please feel free to contact [Carl LoPiccolo](mailto:Carl.LoPiccolo@sineco.com), [Program Manager](#) at 1.800.394.7732 Ext. 8633 or email: carl@sineco.com.
